Objet: Discharging of Slops

Due to the high Concentration of Mercaptan Sulphur and the high Smell of this product, We've been advised by a Chemist after reading your E-mail to discharge your Chemical Slops in a place out of the City properly prepared to receive any type of Chemical product, called "AKWEDO".

To avoid any environmental Casualty for Puma Energy, Ship and you, Compagnie Tommy shall take all responsibilities and assure you a good job. Proper documentation would be given to vessel after Operation.

Marpol Slops : 30 U.S. Dollars per m^3

Chemical Slops : 35 U.S. Dollars per m^3
